Vacancy Notices

Applications are invited from suitable qualified persons for appointment to the post of **2 No. Community Liaison Officers (CLO)** within the Basic Needs Trust Fund (BNTF) Office for its Fifth Programme.

Job Title : Community Liaison Officer
Reports To : The Project Manager
Supervises : N/A
Classification : N/A

Relationship and Responsibilities

Work under the direction of and reports to the Project Manager.

Required to respond whenever necessary to the Chairman of the Project Steering Committee and Permanent Secretary of the Ministry of Social Security, Culture and Local Government and the Operations Officer of the Caribbean Development Bank (CDB).

Interface with independent consultants so engaged by the CDB.

Duties and Tasks

Meet with the Community Development Department (CDD) or any other appropriate Ministry/Agency, Non-Governmental Organisations (NGOs), Community-Base Organisations (CBOs) or other social partner, periodically to inform them of the project and to secure from them ways in which the communities could participate and benefit from Project resources with their assistance.

Assist in training and sensitisation within the community and assist in problem analyses and preparation of requests in the form of BNTF sub-projects. The CLO will pay particular

attention to constraints experienced by poor women and depressed/deprived communities and will assist in preparing proposals to be submitted to Government and CDB. Work closely with the PM, and the Ministry for Community Development, NGOs and CBOs and any other social partners to identify appropriate sub-projects for consideration under the Project.

Assist the PM in processing applications for sub-projects for submission to the PSC for funding under the Project.

Organise community meetings in collaboration with stakeholders and prepare appropriate briefs for project officials to discuss with members of the community, the community's contribution to the design and implementation of prospective sub-projects.

Develop public relations programmes along with the Community Development Department, NGOs, and CBOs to educate community members about the project and motivate them to become actively involved in sub-projects.

Monitor the involvement of community groups in identification, implementation and operation of sub-projects via field visits, reports and surveys.

Facilitate community participation to encourage "ownership" of sub-projects.

Estimate communities' overall contribution to sub-projects including cost of voluntary contributions.

Monitor the post implementation activities in partnership with sponsoring agencies.

Assist in evaluation of social and economic impact of sub-projects on communities.

Attend PSC meetings as required, to report on activities and provide information on proposed sub-project profiles.

Utilise the OM and PRAP for guidance of all Project activities as appropriate.

Perform any other duties that may be assigned by the PM.

Conditions

The successful applicants will be engaged on a contractual basis;

required to maintain a fully serviceable motor vehicle, capable of dealing with the difficult road terrains of rural communities, for the effective performance of duties; and required to work extensively outside working hours without remuneration.

Standards

Work performances will be evaluated on the basis of the following:

Timely and effective implementation of duties, responsibilities and assignments as defined in the job description.

Punctual and consistent attendance to duties.

Compliance with all technical and standard operating procedures embodied in the Operations and Administrative Manuals.

Timely and effective completion of targets set out in work plans.

Qualifications and Experience

At least a Bachelor's Degree in Sociology, rural development or a related field with five (5) years experience working with rural communities.

Skills, Knowledge and Abilities

Ability to speak Creole (patois) fluently.

Sound knowledge of the social life and culture of communities and the country.

Ability to plan and organize work and prepare concise reports.

Proficient in the use of computer, utilizing word-processing and spreadsheet software applications and MS Project.

Ability to establish and maintain effective working relationships with associates and the public.

Ability to apply the participating methods to project implementation.

Administrative and management competence will be an asset.

Salary : In the range of \$3,922.00 to 4,302.96 monthly.

Allowances: Traveling: \$500.00

Telephone (Cell):
\$200.00

Applications along with two references and certified copies of documents pertaining to qualifications should be

addressed to:

Arturo Lopez-Portillo	Consultant	<ul style="list-style-type: none"> • Revision of the 1996 National Emergency Response Plan • Deployment of Continuity of Operations for Health Centres
Karen Dalton	Consultant	<ul style="list-style-type: none"> • Revision of the 2000 National Emergency Response Act

The profile of the Office of NEMO increased significantly over the year in review. The perception, however that the concern is only for hurricanes is one that the office continues to endeavor to change. The mandate of NEMO requires that the country be prepared for any hazard. Hazard analysis and experience shows that Saint Lucia is vulnerable to:

- **Rapid Onset/Natural:** Fire, Seismic, Volcanic, Tsunami, Flooding, Landslide, Storm, Hurricane, Medical
- **Rapid Onset/Manmade:** Dam Collapse, Explosion, Oil/Chemical Spill, Mass Casualty, Nuclear spill, Civil Unrest
- **Slow Onset/Natural:** Drought, Famine, Plague

The key responsibilities of the Organisation are:

- Widen the Network of Disaster Management with new partners
- Increase the mitigation activities of the District Committees
- Increase the planning activities of National and District Committees
- Strengthen response capabilities of National and District Committees
- Strengthen the planning and response capabilities of the Office of NEMO
- Review Disaster Plans for Saint Lucia
- Assist with Disaster Plans for Government Ministries
- Advise on Disaster Plans for Private Sector

Artist's Impression of Response Center

- Research and documentation
- Disaster response and recovery
- Conduct Public Education
- Conduct Volunteer Training
- Conduct Simulation Exercises

The year under review saw an increase in mass events, which drew massive crowds from sports to culture to religious. With it came concerns from the emergency services, which make up NEMO, that enough is not being done to safeguard patrons. The Coordinator of the Caribbean Disaster Emergency Response Agency has pointed out numerous times that the Caribbean is reactive and not proactive in the area of disaster management. This means that persons usually must die before mechanisms are put in place. The members of NEMO are determined that such a pattern will not manifest in Saint Lucia.

As the mandate of NEMO moves towards fulfillment support from the Coordinating Unit of the Caribbean Disaster Emergency Response Agency [CDERA/CU] continues to be of importance. It must be noted that the mandate of CDERA/CU is also maturing. Part of this growth is the recommendation that the composition of the Board of Directors be amended. There has been much debate on this topic and it is NEMO's recommendation that composition remain as is.

The CDERA/CHAMP Project in collaboration with the CDB and OFDA continued with work on a National Hazard Mitigation Policy. The Draft Document was published in the Saint Lucia Gazette as a prelude to a National Consultation host by NEMO in September.

The ability of the National Emergency Management Organisation (NEMO) to conduct land-based search and rescue operations was strengthened when NEMO took delivery of equipment from the Caribbean Disaster Emergency Response Agency (CDERA). This was one installment of the three-year project "Strengthening of the Search and Rescue Capability of the Caribbean Disaster Emergency Response Agency". Together with the Draft Land Search and Rescue Plan, which is also a component of this project as well as the Draft Marine Search and Rescue Plan, the equipment and in particular the vehicle will signify a leap forward in NEMO's member agencies' ability to respond. The Plans are presently with the Saint Lucia Fire Service and the Marine Police respectfully to be adapted, adopted and submitted to NEMO to carry to Cabinet as part of the National Emergency Response Plan. NEMO embarked on a dissemination of information campaign that saw information shared with Schools, the Saint Lucia Blind Welfare Association and the Council of and for Older Persons. It is a campaign that in the upcoming year that NEMO hopes to intensify as well as expand. Together with the Ministry of Works, NEMO embarked on the intensive labeling of the Emergency Shelters. The labeling highlighted two recurrent challenges: The First being that the public continues to associate Emergencies/ Disasters with only storms. Many persons pointed out that the chosen building was not appropriate for storm. Once it was explained that the building was not a Hurricane Shelter but an

Emergency Shelter and all that the difference implied the objections were usually withdrawn. The second challenge was the many Managers who claimed not to know that their building was a Shelter. In collaboration with many agencies, NEMO has conducted Shelter Management Training. The list is published annually and persons are aware that all Schools and Churches are shelters. This program highlights the continued need for information penetration.

Education in its varied forms is an area that comprises a significant component of NEMO's programming. The following matrix details the training and workshop activities for the period under review, with training for over nine hundred persons in areas ranging from Shelter Management to Stress Management. The training was conducted in partnership with agencies such as ODFA, PAHO and CDERA.

For first time the Team was in the position to test the Telecommunications system. As with all 'firsts' the results show there is much work to be done. HQ missed many scheduled dates, while there was never a 100% response from the District Committee on the dates that the tests did occur.

The Dennery South Disaster Committee celebrated their 21st Anniversary and NEMO facilitated the donation by the Ambassador of the Republic of France of a computer and printer, valued at three thousand five hundred dollars.

The Dennery South Disaster Committee celebrated their 21st Anniversary and NEMO facilitated the donation by the Ambassador of the Republic of France of a computer and printer, valued at three thousand five hundred dollars.

The Dennery South Disaster Committee celebrated their 21st Anniversary and NEMO facilitated the donation by the Ambassador of the Republic of France of a computer and printer, valued at three thousand five hundred dollars.

Rapid Environmental Assessment Training

NEMO and The Saint Lucia Mission of the Seventh Day Adventists (SDA) signed a Memorandum of Understanding that would strengthen NEMO in its mandate of preparedness and response.

The Awards Committee met early in 2003 and agreed to widen the scope of the NEMO Awards to include Good Samaritan deeds, the Media as well as Public and Private Sector Agencies. The categories of School and Community were to be repeated. Nomination forms were distributed to all Schools through the Ministry of Education, to all District Disaster Committees and Media Houses. In collaboration with the Mirror Newspaper a copy of the Good Samaritan Nomination form was available in every copy of the October 4th, 2003 issue. The forms were also available on the internet and distributed at very workshop and consultation hosted by NEMO. The deadline of October 31st, was set and the Committee received no nominations. Thus the contingency plan was activated where a perpetual trophy for the Kenneth John Award for Heroism was commissioned and hosted by the Governor General at the Interpretation Center at Government House. Despite the commissioning of the perpetual trophy the Committee still expressed its disappointment at the lack of nominations from Disaster Committees and the wider community.

The Saint Lucia Air and Seaports Authority held its annual full scale simulation this time at the GFL Charles Airport. NEMO was commissioned to write the script to the scenario, which involved the fictitious Flight 013 of Omega Airlines is carrying a compliment of fifty (50) passengers and two (2) crew members. The undercarriage of the plane is malfunctioning and the plane is low on fuel - therefore it cannot circle IT MUST LAND. In the executing the landing the undercarriage collapses. The aircraft veers off the runway and crashes. As a result of the crash the Emergency Services are mobilised. Continuing from 2002, the National Emergency Management Advisory Committee (NEMAC) approved the second set of response plans. The National Emergency Response Plan now comprises of:

1. Hurricane Response Plan
2. Flood Management Response Plan
Anse la Raye Evacuation Plan (Appendix to Flood Management Response Plan)
3. Earthquake Response Plan
4. Volcanic Eruption Response Plan
5. Oil Spill Plan
6. Hazardous Materials Plan
7. Stress Management Response Plan
8. Hazard Mitigation Plan
9. Maritime Search and Rescue Plan
10. Land Search and Rescue Plan
11. District Disaster Committee Model Plan
12. Policy on Donations
13. Policy on Travel
14. Policy on Management Dead Bodies in Disasters
15. Policy on Emergency Shelters
16. Policy on Emergency Housing

Other documents to be submitted to NEMO for presentation to NEMAC are:

NEMAC in session

1. Policy on Hazard Mitigation
2. Health Sector Response Plan
3. Ministry of Works Response Plan
4. Borderlais Correctional Facility Response Plan
5. Cruise Ship Response Plan
6. Hospitality Industry Crisis Response Plan

NEMO will continue its work on plans such as:

1. Policy Guidelines on Mass Crowds Events
2. Policy on Hazard Mitigation
3. Policy on Displaced Persons

Achievements for the period 2003/2004:

- Consolidated the information network for the dissemination of press releases.
- Published Annual Report
- Completed final stages of the OECS Emergency Recovery and Disaster Management Project
- Established MOU with the Mission of the Seventh Day Adventists

- Training of almost one thousand persons in various aspects of disaster management
 - SUMA [Supplies Management]
 - SMID Level II [Stress Response in Disasters]
 - HazMat First Responders [Hazardous Materials]
 - Oil Spill First Responders
 - Use of Telecoms
 - First Aid/CPR
 - Vulnerability and Capacity Assessment [VCA]
 - Disaster Management and the Security Services
 - Disaster Management and the Health Sector
 - Continuity of Operations for the Health Sector
- Completed the second stage in the adoption process of the National Emergency Response Plan
 - Hurricane Response Plan
 - Flood Management Response Plan
 - Anse la Raye Evacuation Plan (Appendix to Flood Management Response Plan)
 - Earthquake Response Plan
 - Volcanic Eruption Response Plan
 - Oil Spill Plan
 - Hazardous Materials Plan
 - Stress Management Response Plan
 - Hazard Mitigation Plan
 - Maritime Search and Rescue Plan
 - Land Search and Rescue Plan
 - District Disaster Committee Model Plan
 - Policy on Donations
 - Policy on Travel
 - Policy on Management Dead Bodies in Disasters
 - Policy on Emergency Shelters
 - Policy on Emergency Housing
- Distributed:
 - Public Safety Advertisement on Disaster Preparedness to all Radio Stations on:
 - The Christmas Season
 - The Easter Season
 - Information Posters
 - All District Disaster Committees
 - All Secondary Schools
 - All Health Institutions
 - All Police Stations
 - Information Brochures
 - All District Disaster Committees
 - All Post Office Boxes [Weather Hotline]
 - Pets [All Vets]
 - Newspaper: Disaster Management for the Older Person
 - Flood Information for the Visually Impaired
 - Virtual Library:
 - All Secondary Schools
 - All Health Institutions
- Participated in Simulations:
 - Explosion [World First Aid Day.]
 - Plane Crash [SLASPA]
 - Flood
- Attended/planned:
 - National Consultation on Comprehensive Disaster Management
 - Introduction to Vulnerability and Capacity Assessment (Trinidad)
 - Lessons Learned from Hurricane Lenny (Guadeloupe)
 - National Consultation on Disaster Legislation Bill
 - National Consultation on National Hazard Mitigation Policy
 - CDERA Board Meeting (Montserrat)

For 2003 Hurricane Season the National Emergency Management Organisation with the National Emergency Management Advisory Committee was activated twice; first for the Tropical Wave of July 7th which caused over EC\$3 million in damage and then for Tropical Depression Number 6 which threatened to stop Carnival.

As a member of the United Nations; on Friday, September 8, 2000, together with over one hundred and fifty Heads of State from around the world Saint Lucia adopted the United Nations Millennium Declaration, parts IV and VI within the declaration refer to Disaster Management and state:

IV. Protecting our common environment

23. (4) *To intensify cooperation to reduce the number and effects of natural and man-made disasters.*

VI. Protecting the vulnerable

26. *We will spare no effort to ensure that children and all civilian populations that suffer disproportionately the consequences of natural disasters, genocide, armed conflicts and other humanitarian emergencies are given every assistance and protection so that they can resume normal life as soon as possible.*

Through NEMO and its other departments it is the intension of the Government of Saint Lucia to continue with the mandate of having the Nation prepared for a disaster.

A. L. DAWN FRENCH
 Director - NEMO

Downed Tree at Praslin July 7th Wave

Part 2

Government Liaison Officers

MINISTRY OF AGRICULTURE, FORESTRY AND FISHERIES
REPORT FOR
April 1, 2003 – March 31, 2004

During the reporting period April 2003 to March 2004 the Ministry of Agriculture, Forestry and Fisheries was able to ensure that most of the requirements for the safety of its workers and property were in place during the hurricane season and in the event of a disaster. Manuals were provided to all heads of departments and divisions and the staff would familiarize themselves with the procedures. Every officer is required to know exactly what to do to secure their work area including responding to natural disasters. This was demonstrated effectively during the hurricane season.

Projections for April 1, 2004 to March 31 2005:

1. A fire drill for the department along with the other agencies housed in the building.
2. Ensure that all fire escapes are properly marked. Communication with N.I.P.R.O. already undertaken to this effect.
3. Periodic testing of radio communications systems in preparation for storms and disaster.

Concerns

Fire escape to the left of the building is non functional because it ends on the roof of a building below and not on the ground. This is a concern that has to be dealt with in the very near future.

The opportunity is taken to thank N.E.M.O. for the assistance given during the year.

Anthony Thomas

Liaison Officer – Ministry of Agriculture, Forestry and Fisheries

PRESS RELEASES

St. Lucia Pilots New Software

Director of SEAM Management Sciences, Keith Johnson - Left and Managing Director - OECS Pharmaceutical Procurement Services-PPS, Francis Burnett - Right after signing MOU

The Open Relationships for Integrative Organizations software program - ORION@MSH, developed specifically for pharmaceutical stock management has been installed in St. Lucia, the pilot country.

ORION@MSH, which will in time be installed in the wider region is built on ICICI InfoTech's ORION inventory program, used to facilitate stock management. Administered by the Management Sciences for Health (MSH), the software will eventually phase out the 17-year old DOS software now used by 15 – 20 countries.

Managing Director of the St. Lucia-headquartered, OECS Pharmaceutical Procurement Services-PPS, Francis Burnett, signing a Memorandum of Understanding with MSH, said OECS Pharmaceutical Procurement Services is grateful that St. Lucia was selected as the pilot site for this program. "It is really virgin territories, a new area for us and it is installed for the very first time in St. Lucia and PPS, and we intend to roll out the program in St. Kitts and Grenada later on this year," Burnett added.

The ORION software is being installed by a six-member team of information technology experts from the USA and India, who will also conduct training for selected persons over the next five

weeks.

Director of SEAM Management Sciences, Keith Johnson said that the OECS- PPS was being considered a model for regional cooperation in the health field, adding that WHO, World Bank and other donor organizations had put PPS on their list of successes.

"Literally, any place that we go on our projects, there is recognition of the fact that it is the Caribbean that leads the world on regional procurement. Other countries have tried, but there have been very few successes. The other regional block that has really succeeded is in the Middle East, where there is a very tight group of countries set up in an effort to do procurement there, but all other efforts basically, have failed," Mr. Johnson said.

The ORION software comprises six interlinked modules to support all aspects of medical store management based on industry standards and best practices. The software is being funded by the Bill and Melinda Gates Foundation, which has donated millions of dollars to improve health care in developing countries.

The Caribbean's Who's Who of Science and Technology

A project to recognize and build pride in the achievement of Caribbean persons in the field of science and technology is being undertaken by a Trinidad and Tobago-based Research Company. The National Institute of Higher Education Science and Technology (NIHEST) is going around the Caribbean recording the names of outstanding West Indians, which will be published and distributed to schools and citizens of the region.

The project, Caribbean Icons in Science and Technology being undertaken by NIHEST is funded by the Organisation of American States (OAS). It involves the building of a data base of outstanding Caribbean men and women in the field of Science and Technology. NIHEST will recognize the achievements of these persons, as well as publish a booklet and CD ROM of the names and their achievements.

Researcher, Stacy Ann Sargusingh, says the project is important for the creation of awareness in the general citizenry, of the expertise in the region. According to Miss Sargusingh, "we all know who our outstanding scientists are in North America and Canada, but we don't know who our Caribbean people are. Therefore, this booklet will allow students to recognise that we have people here who achieved great things also."

Saint Lucian Dr. Earl Long is being interviewed for possible inclusion in the who's who of Caribbean excellence in science and technology. Dr Long works with the Centres for Disease Control in Atlanta in the United States and is a lead researcher in tropical diseases. He says the initiative is overdue and is invaluable for the Caribbean psyche

St. Lucia Sets Momentum for VAT Verification Tour

The ICC-World Cup 2007 Venue Assessment Team (VAT) has begun its verification tour to bid countries. The tour will provide the team of world games experts the opportunity to assess and verify the proposals contained in their World Cup 2007 Bid Book. Although St. Lucia and Barbados have submitted joint bids, the two countries will be assessed individually.

The 11-member team, led by Cricket World Cup 2007 Chief Executive Officer, Chris Dehring made its first stop in St. Lucia on May 23, at Hewanorra International Airport in Vieux Fort. They were met by Prime Minister, Honourable Dr. Kenny D. Anthony and key persons, including Youth and Sports Minister, Honourable Mario Michel; and the Local Organizing Committee for World Cup 2007 chaired by Cabinet Secretary, Dr. James Fletcher.

The packed agenda for the 1-day working schedule for the team included a detailed tour of the relatively new Beausejour Cricket Ground, which has already received regional and international acclaim as one of the best cricket facility in the region. The group sessions there looked at media facilities, ambush marketing, security, cricket grounds, disaster management, marketing support, accommodation, transport, immigration and customs, medical services, WICB rights/sponsor obligations, generic event functions, and match-day operations. There were also field visits to the National Stadium, Rodney Bay Marina, Pigeon Island, road networks, and generic events sites.

The local media was apprised of the rudiments of the World Cup 2007 bidding process and had their concerns addressed during a press conference led by Mr. Dehring and ICC- Venue Development Specialist, Donald Lockerbie. Mr. Dehring assured that the team was embarking on the most professional and scientific approach to managing, hosting and eventually selecting the host venues for 2007.

"We are looking at the best resources that each country can offer, all the assets, all the inventory, to put together a collaborative effort, which will ultimately be in 2007", he told the media, informing that the team had very positive discussions in St. Lucia. "The entire atmosphere, the entire spirit of the discussions was exactly what I expected it to be," Mr. Dehring said.

The St. Lucia visit is expected to provide the impetus for the continuation of the verification tour. Mr. Lockerbie said, "The fact of the matter is that St. Lucia has already impressed us; we've had a history of it recently; we had our venue summit here last September; we've had several board meetings here for Cricket world Cup; and now we have the Verification Team".

The Venue Assessment Team will end its Verification tour on June 12, 2004, in Bermuda. Out of 11 bidding countries, the eight host venue finalists will be announced on July 4, and the announcements for the actual matches that will be awarded will be made on July 13, 2004.

Prime Minister, Dr. Kenny D. Anthony (right) welcomes Mr. Chris Dehring, CEO of the Cricket Bid Committee for World Cup 2007. Minister of Education, Youth and Sport, Hon. Mario Michel is in the background (centre) and at left, Dr. James Fletcher, Cabinet Secretary and Chairman of the Local Organizing Committee for World Cup 2007, at Hewanorra International Airport

Post of Lord Chancellor to be Abolished Vindicates Need for CCJ

The United Kingdom Government has advised the respective governments of the Organisation of East Caribbean States (OECS) that the post of Lord Chancellor of the United Kingdom (UK) would soon be abolished. Consequently, the OECS governments have been invited to re-examine the laws and procedures, which govern the appointment of the Chief Justice of the Eastern Caribbean Supreme Court.

This latest development underscores the correctness of the decision of the Caribbean countries to establish the Caribbean Court of Justice (CCJ) to replace the Privy Council.

Prime Minister, Dr. Kenny D. Anthony, has for some time now been pointing out to the people of the region that they cannot expect the UK government to retain positions in their constitution purely to facilitate appeals from Commonwealth Caribbean countries to the Privy Council.

Now, Dr. Anthony has been vindicated, but as the current chairman of the O.E.C.S., this legal hot potato has fallen squarely in his lap. Dr. Anthony, of course, is no stranger to these matters, as he is also the lead Prime Minister in CARICOM with responsibility for Justice and Governance, including the establishment of the CCJ.

The British government has pointed out that the relevant 1967 legislation establishing the East Caribbean Supreme Court provides that the Chief Justice of the Eastern Caribbean Supreme Court shall be appointed by her Majesty the Queen by Letters Patent. It was decided at the time, that the Lord Chancellor would advise the Queen on the appointment and that when tendering such advice he would consult the Premier of each of the Associated States in which the Supreme Court had jurisdiction.

Most recently, the convention has been for the Director General of the OECS to write to the Lord Chancellor, informing him of the unanimous decision of the Heads of Government and urging him to advise Her Majesty to appoint accordingly. The relevant legislation also provides for the Lord Chancellor to be involved in the case of the removal of a Chief Justice of the OECS Supreme Court and the British government has indicated to the OECS Heads of Government that the Lord Chancellor's role in this respect will also need to be replaced with an appropriate mechanism.

Reacting to this latest move by the British Government, Dr. Anthony says the decision to abolish the post of Lord Chancellor "will have serious repercussions, as it may compel changes to the constitutions of the OECS countries." As a result, urgent consultations will be held with the Attorneys General of the OECS to assess the implications and to agree on a joint approach.

Prime Minister Anthony is expected to visit the UK to discuss the implications of the change with British officials.

Lawyers and Members of Judiciary Restore Courtrooms

Lawyers and Members of the local Judiciary will be in the Courtrooms over the next two weekends, but on a different kind of assignment. They will be actively involved in restoration work on three Courtrooms in the main court buildings in Castries.

The \$15,000 project is being financed by the Lawyers and Judges themselves, and they will carry out the work under the supervision of building contractor, Mr. Walter Joseph of La Clery.

The work will be carried out on the main District Court, the Orientation Room and the Traffic Court. It will involve painting and minor renovations of the ceilings, the replacement of damaged doors and benches and the installation of air conditioning in one of the Courtrooms to make it more conducive to efficient working by keeping out noise from the surrounding environment, especially traffic noises.

Preliminary work on the project actually began last week, but the main tasks will be carried out over the next two weekends. Chief Justice Sir Dennis Byron commenting on the project said: "This is an important public relations exercise for those of us who are involved in the dispensing of justice. We have heard the complaints about the conditions in the Courts and have decided to do something about it ourselves".

In this way, Sir Dennis said, the Lawyers and Judges would demonstrate in tangible terms their care about the state of the environment in which justice is dispensed.

The Chief Justice lauded the involvement of the contractor, whom he said had offered to supervise the project at minimal cost, because of his own personal concern about the existing state of the Courtrooms.
