BNTF 5 was approved on December 13, 2001, by the Caribbean Development Bank (CDB) and provides grant funding to ten participating borrowing member countries (BMCs) viz. Belize, Commonwealth of Dominica, Grenada, Guyana, Montserrat, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, and the Turks and Caicos Islands. BNTF 5 funding is being provided by CDB, and the Governments of the participating BMCs. CDB has also received from the Canadian International Development Agency additional funding for BNTF 5.

The infrastructure component of BNTF 5 provides, *inter alia*, for the implementation of an unspecified number of sub projects consisting primarily of minor civil works including buildings for health, education, marketing and other purposes, water supply, footpaths, bridges, drains and minor road developments. The maximum cost of each sub project cannot exceed the equivalent of US\$500,000 and sub project construction works will be done either by private or petty contract, direct labour, self help or a combination of the aforementioned modes of execution. The average cost of construction of similar sub-projects done under the BNTF 4 programme is US\$73,000. The cost of the majority of sub-projects cannot exceed the equivalent of US\$35,000.

Additional information on BNTF 5 can be obtained at CDB's web site, viz. www.caribank.org Projects/ Programmes/Basic Needs Trust Fund.

STATEMENT OF CAPABILITY: CONSULTING SERVICES

THE Government of the Grenada (GOG) has received a Grant from the Caribbean Development Bank (CDB) for the procurement of consultancy services to determine the viability of developing a range of value-added products from nutmeg. Consultancy services are required to:

- determine the feasibility of diversifying the nutmeg industry;
- develop a Strategic Action Plan for the industry; and
- prepare a Business Plan for the Grenada Cooperation Nutmeg Association, as a component of the strategic plan.

Consultancy services relate to diversification of the nutmeg industry's operations and product line to strategically position the industry to compete globally, improve industry viability and enhance the prospects for sustainability of the industry as a major contributor to Grenada's economic growth and development. It is expected that new product development from the primary raw material, upgrade and/or application of new technology, expansion of the production base, streamlining of technical and financial operations and implementation of strategic and business plans will increase the value of the contribution of the industry.

The services will be delivered in two

phases. Under Phase I, the Consultants will be required to determine the market potential and technical feasibility of processing nutmeg derivative products. Under Phase 2, the Consultants will be required to evaluate the investment potential and options available to the industry and develop strategic options. The undertaking of services for Phase 2 will be contingent upon confirmation of market and technical feasibilities and acceptance by GOG/CDB of the recommendations made in Phase I.

GOG is seeking to recruit consultants with expertise in market analysis, food processing technology relevant to spices, industrial engineering, financial and economic analysis, institutional and organisational assessment, social assessment and project preparation or related disciplines.

Consultants shall be eligible for procurement if :

in the case of a body corporate, it is legally incorporated or otherwise organised in an eligible country, has its principal place of business in an eligible country and is more than 50% beneficially owned by a citizen or citizens and/or & bona fide resident or residents of an eligible country or countries or by a body or bodies corporate meeting these requirements;

in the case of individuals and unincorporated firms, the person or persons is or are a citizen or citizens or *bona fide* resident or residents of an eligible country; and

in all cases, the Consultant has no arrangement and undertakes not to make any arrangements whereby any substantial part of the net profits or other tangible benefits of the contract will accrue or be paid to a person not a citizen or *bona fide* resident of an eligible country.

For the purpose of this consultancy, eligible countries are the member states of CDB and the Inter-American Development Bank.

GOG now invites eligible consulting firms interested in undertaking the assignment to provide statements of capability to undertake the services for both Phases. In assessing submissions, consideration will be given to the technical competence of the applicant, qualifications and experience of staff likely to be proposed for the assignment,

PRESS RELEASES

Laborie commended for its Strong Cultural

The village of Laborie has received recognition for being one of the strong cultural footholds on the island. The Praise was bestowed on the village by Minister for Social Transformation, Honourable Menissa Rambally. She was at the time addressing the community and visitors at Emancipation Day activities at the Laborie Square.

The cultural event, which was organised by Labowi Promotions with support from the Cultural Development Foundation and the Alliance Française was described the Minister as proof that St. Lucian heritage was being preserved and developed in the Laborie community.

Calling on community members to applaud themselves for the outstanding work, which they were doing in terms of cultural development, Minister Rambally acknowledge the people of Laborie for ensuring that aspects of the island's cultural life were given special significance. She said that Laborie had become well known for ensuring true meaningful celebrations and observances.

The Minister spoke to Laborie's participation in other national events, such as St. Lucia Jazz and Jounen Kweyol, noting that the community had created a cultural niche market: "You are fast becoming home to those special niche activities. My guess is that the people of Laborie stand to benefit significantly from these types of activities. Though you may think that your initiatives are small, I am sure that in the long run they will tremendously benefit your community".

Emancipation Day activities in Laborie featured Bou Mohammed Ndiaye, a traditional drummer from Senegal, West Africa, who has played with many top international artists, including Stevie Wonder and The Rolling Stones. There were also top cultural artistes from the South of the island.

The theme of this year's Emancipation Day in Laborie was "Celebrating All Freedoms". It was chosen to commemorate the abolition of slavery, but also to relate this commemoration to the liberation of all citizens and to the need to preserve freedom in all aspects of modern life.

Labowi Promotions has been commemorating Emancipation Day for the past three years. Last year, the group hosted performances of the popular musical Sarafina. In 2002, it organised a panel discussion on the theme "1834-2002: Rights and Freedom. What have we gained? What do we still need to gain?"

MBI Airbus dedicates direct weekly flight to Saint Lucia

St. Lucia is soon to benefit from a direct weekly service from a British Midlands International (BMI) Airbus out of Manchester with a carrying capacity of 400 passengers.

The airline was first slated to begin a shared service to St. Lucia and Barbados in November this year. But after an analysis of St. Lucia's performance in the market, BMI decided to enhance its services here with a direct, dedicated flight to St. Lucia every Monday.

"This new air service will provide the island with the opportunity to share a section of the British market that was never ventured into before", said Public and Visitor Relations Manager of the St. Lucia Tourist Board, Kimani Goddard, adding, "It will also allow the Tourist Board to market St. Lucia as a tourism product to a completely new, UK Market. She noted that this new air service would provide an even greater boost for St. Lucia's wedding and honeymoon markets. "As you know, St. Lucia has a very high percentage of visitors coming for weddings and honeymoon, and the timing of the flight will be very important for that market", Miss Goddard said.

Currently, over 36% of arrivals to St. Lucia are for weddings or honeymoon, with excess demand in the market, especially in the UK market. Figures from January to June 2004 show a 13.9% increase in arrivals from the UK market. Miss Goddard attributable this to St. Lucia's marketing efforts and the increase air lift out of the UK market over the past three years.

Caribbean Workforce must Unify to achieve Competitive Advantage

The current wave in business and national development has been summed up in the word: “Transformation”. So says Professor of Business and Director of Labour Studies, UWI School of Business, Professor Neville Ying.

Professor Ying was at the time addressing a gathering of Chief Executive Officers attending a roundtable session hosted by the International Labour Organization and the St. Lucia Employers Federation.

Speaking in the context of radical changes confronting the workforce of the region, Professor Ying said there must be a unification of working, intellectual and social capital, as this unification will give the region a competitive advantage.

“Transformation and development means strategic and fundamental change to the capacity, structure, mode of operation of a company to achieve profitability and economic competitiveness. So here we are not talking about incremental change; we are talking about radical change of the business. Transformation and development means radical change in ownership and governance. It means radical change in the nature of the core business. It means radical change in how we seek to satisfy our customers and stakeholders,” he said.

Professor Ying pointed to several big companies in the region, which have undergone substantial transformation, including changes in ownership. This he said was all part and parcel of responding to the current business environment.

Emancipation Day: A Call for Positive Values

As Saint Lucians celebrated Emancipation Day on August 1st, a call has been sounded for a recommitment to strong, positive and righteous values, while at the same time using today’s technologies and opportunities to help develop into a proud, industrious, respected, viable and admired nation.

That call has come from Minister for Social Transformation, Honourable Menissa Rambally as she addressed the nation Sunday August 1st, 2004..

Minister Rambally expressed concern at the erosion of many of the values for which the island’s ancestors stood, and which underpinned much of the progress made thus far: “We are beginning to see a deterioration of civic responsibility and a growing selfishness that are gnawing away at the social fabric of our nation. No longer are we taking collective responsibility for our development, but tending instead, to cater to narrow self-interests and aggrandizement. We see some among us falling for the trap of get-rich-at-all-costs activities and eschewing the characteristics of hard work, discipline, dedication, respect and loyalty that our forefathers espoused in building our nation.”

Minister Rambally also lamented that common courtesies that were taught as children and extended automatically to each other were now being replaced by rudeness, disrespect and ridicule, even towards the older, the less fortunate and the less-abled.

“That is why, my fellow Saint Lucians my message this year is a simple, but I believe important one. We need to rediscover our Saint Lucianness – those traits and features that made us a courteous, respectful, disciplined, law-abiding, industrious and patriotic people. All of the gains that we have made since our physical emancipation will be destroyed, if we do not truly free ourselves of the negative values that some of us now practice,” she said.

Activities for the observance of Emancipation will be held throughout the entire month of August under the theme, “A rediscovery of our Saint Lucianness”.

Caricom Youth Ambassadors Urged To Lead In The Fight Against HIV/AIDS

Prime Minister of St Kitts and Nevis and Caribbean Community (CARICOM) Head with responsibility for Health and HIV/AIDS, Dr. the Honourable Denzil Douglas has charged CARICOM Youth Ambassadors (CYA) at a workshop in St. Kitts and Nevis to become effective change agents in the fight against HIV/AIDS.

Addressing the youths on the final day of their four-day strategic planning workshop at Bird Rock, St. Kitts and Nevis, Dr. the Hon. Denzil Douglas stressed the need for a strategic coordinated and sustained approach to combating the dreaded disease, noting that HIV/AIDS is prevalent among young people.

The St Kitts and Nevis Prime Minister acknowledged the vital role of the youth ambassadors in the fight against the pandemic, and pointed out that despite the wide dissemination of information on the nature and impact of the disease on the individual and society, there continues to be an increase in the incidence and spread of the virus.

Dr. the Hon Douglas said, "Few countries now consider HIV/AIDS as only a health issue. Instead, the pandemic is now regarded as a risk to national and regional development because of the serious challenges it poses to sustaining economic activity and attracting human and financial resources." He emphasized the need for increased access to care and greater involvement of all in spreading the message of HIV/AIDS prevention.

Noting that HIV/AIDS is the leading cause of death in the 15-44 age group, the Prime Minister urged the young leaders to become vigorous advocates particularly if they are to influence their peers. He reiterated that they must be part of the planning and implementing of any initiative that is geared towards stemming the spread of the virus—"we must act today, and [act] together. Everyone must commit to positive action," he said.

It is hoped that at the end of the workshop, Youth Ambassadors along with their fellow youth from other networks and organizations, will develop a plan of action to enhance their capacity towards making a difference in the control and reduction of the spread of the disease.

Prime Minister Douglas assured the delegates that St Kitts and Nevis would play its role in building effective youth mechanisms to assist with lessening the impact of HIV/AIDS.
