## British Academy/ACU Grants for International Collaboration 2005/06

THE Association of Commonwealth Universities is pleased to announce the continued availability of funding to help support international joint projects in the fields of the humanities and the social sciences.

Funds are available to support international joint projects, involving British scholars in collaboration with Commonwealth partners. Applications must be for projects involving genuine collaborative work between a defined group of scholars in one, or possibly two, other Commonwealth countries. Priority will be given to applications involving the initiation of a new programme where there is an expectation of continued collaboration, or a defined outcome such as planned joint publications. Preference will be given to projects – from any discipline – which consider the political, economic or cultural relations between countries or regions of the world.

### Applications:

Applications should be submitted by the British partner on the enclosed

application form. Applications submitted direct by overseas partners will not be considered. Application forms can also be downloaded from the ACU website: [www.acu.ac.uk](http://www.acu.ac.uk).

### Tenure:

Awards are tenable for one year and further funding is not available. Projects may however span up to two years.

### Eligibility:

Grants are available for advanced research at postdoctoral or equivalent level or beyond in the fields of the humanities and social sciences.

Awards will not be made retrospectively; applications must be made in time for them to be considered well before the research is due to begin.

Participants must be on the staff of a university in membership of the ACU at the time of application. A full list of ACU members can be obtained from the ACU's website.

Please note that only applications received from institutions in full ACU membership will be considered eligible; nominations from institutions in arrears with subscription payments at the time of the selection meeting will not be considered.

### Value:

Up to £5000 according to the actual programme and intended to cover travel, maintenance costs and approved research expenditure incurred in the partner country or countries. The award is not intended to cover institutional overheads or permanent staff cost. It is understood that collaborative work might not necessarily involve travel in both directions by both partners: travel in one-direction only is acceptable. Support will not be offered for an open-ended programme involving widespread international participation, or a programme of benefit primarily to the British partner.

### Referees:

All applications should be supported by two references; applications submitted without the required number of referees' reports will not be considered. Referees should be able to give an informed view of the proposed project and those involved, and assess its likely impact on the subject

area; they should normally be from outside the applicant's institution. The applicant is responsible for requesting the references, which should be sent directly to the ACU at the address shown below so as to arrive before the competition closing date.

### Closing Date :

Applications should be addressed to —

Human Capacity Development (IC)  
Association of Commonwealth  
Universities  
36 Gordon Square  
London WC1H 0PF  
United Kingdom

so as to reach the Association not later than 30 September 2005. The selection committee's decisions will be made known to all applicants in November or as soon as possible thereafter.

### Conditions:

Recipients must provide written confirmation that the award will be used in accordance with the details given in the application. They must also, on conclusion of the project, provide a report on the project and its academic achievements, and on the expenditure of the grant.
