Official Uniforms of the Bordelais Correctional Facility

THE Correctional Service Act number 24 of 2003 changed the name of the uniform staff from Prison Officers to Correctional Officers. Since then a different uniform was recommended and worn by the Correctional Officers of the Bordelais Correctional Facility. The original new uniform of grey trousers and white shirt is now changed to a navy blue trousers and light blue shirt for a more universally (United States of America) copied style. This gives a better psychological and socially accepted, kinder and gentler feeling to the new mission statement presently adopted by the Management of the Bordelais Correctional Facility.

UNIFORM ISSUE:

Director of Corrections:

White uniform short sleeve shirts
Navy blue trousers 1/2 inch stripe
White uniform long sleeve shirt
Black tie
Black leather shoes
Cap peak (double silver lace)
Cap peak (double silver lace) ceremonial
Ceremonial Black suit
Shoulder title (crown & laurel leaf)
Lanyard (black)
Officers cane
Gazette designated gold metal badge
Name tag
Belt black

Deputy Director of Corrections:

Same as per the Director of Corrections with the exception of :

Shoulder title (laurel leaf & two pips)

Assistant Directors:

Same as per Director and Deputy Director with this exception:

Shoulder title (laurel leaf & one pip)

Cap peak (single silver lace)
Cap peak (single silver lace) ceremonial

Unit Managers/Operations Managers:

Same as per Director & Deputy Director of Corrections with these exception:

Shoulder title (three pips)
Cap peak (single silver band)
*Ceremonial Black suit
*Cap peak (single silver band) ceremonial

Correctional Officers:

Light Blue uniform short sleeve shirt
*Light Blue uniform long sleeve shirt
Navy Blue uniform trousers
Black tie
Black leather shoes
Cap peak
*Cap peak (ceremonial)
*(Ceremonial Black suit
*White shirt (official)
Shoulder title (when promoted)
Gazette designated silver badge
Name tag
Black belt
Weapon (38 or 9 mm) pistol

EASTERN CARIBBEAN SUPREME COURTOF THE HIGH COURT OF JUSTICE
(CIVIL)

SAINT LUCIA

IN THE MATTER of the Application of MARY CHERRY under Article S.2103A of the Civil Code Chapter 242 of the Laws of Saint Lucia 1957 for a Declaration of Title to Immovable Property

AND

IN THE MATTER of the Chapter 2.01 of the Laws of Saint Lucia Revised 2001 Supreme Court Prescription by 30 Years (Declaration of Title) Rules.

CLAIM NO. SLUHCV 2009/0354**BEFORE: THE REGISTRAR OF THE HIGH COURT**

WITHOUT NOTICE:

SUMMONS

WHEREAS, MARY CHERRY of Babonneau in the Quarter of Castries, by her Petition filed in the High Court on 08th April, 2009 claims to have acquired title by 30 years prescription to the property described in the Schedule hereto and has applied to the Court for a declaration of title.

All persons claiming an interest in the said property are hereby required to enter an appearance in the Court Office, in person or by Solicitor, within two months from the date of the last publication of this Summon which is being published twice in the Gazette.

SCHEDULE

All that piece and parcel of land shown on the Land Registry Map as Block 1247B Parcel 76 and consisting of a portion of land measuring One Point Zero (1.0) Hectares or Two Point Four Seven (2.47) Acres situate at Babonneau in the Quarter of Castries in the Island of Saint Lucia and bounded as follows:- NORTH by a parcel of land registered at the Land Registry of Saint Lucia as Block 1247B Parcel 25 belonging to Mary Euter Simon, SOUTH by a parcel of land registered at the Land Registry of Saint Lucia as Block 1247B Parcel 77 belonging to Anicia Lambert; EAST by a parcel of land registered at the Land Registry of Saint Lucia as Block 1447B Parcel 398 belonging to Alvin Alexander John and John Humberton Pilgrim and by Block 1447B Parcel 156 belonging to Gladys Joseph, and WEST by a parcel of land registered at the Land Registry of Saint Lucia as Block 1247B Parcel 75 belonging to Leonard Reynolds or howsoever otherwise the same may be bounded together with the appurtenances and dependencies thereof.

The said parcel of land is shown on Survey Plan by Earl Cenac, Licensed Land Surveyor drawn by M. St. Juste as Drawing No. C.11243B dated on the 10th September, 2007 and lodged with the Chief Surveyor on 30th October, 2007, recorded as No. SM458/2007.

	Ethelyne, Propylene, Buthelyne (20 lbs)	-35.25 cents per pound

HON. STEPHENSON KING,
Minister of Finance.

TECHNOLOGY

Put down that phone, cries elbow

Oh no! Is she on her way to “cell phone elbow?”

While the link between cell phone use and brain damage is still debatable (personally, I don't want to believe it), another body part may be paying the price for constant connectedness: the elbow.

According to health reports, doctors have identified a condition called “cell phone elbow,” also known as cubital tunnel syndrome.

It's basically pain in your elbow that results from compression of the ulnar nerve. This nerve problem can come from spending too much time folding the elbow in an unnatural stance, such as when you use the computer in a nonergonomic position or, most commonly, when you hold the phone to your ear. I often do both at the same time.

Doctors say this is an increasingly common issue among those who are reliant on technology, especially cell phones. The syndrome leads to chronic or periodic pain in the elbow, tingling along the fingers, and even loss of strength and control in your hands.

When talking on a cell phone without a hands-free device, the elbow is usually held in an unnatural, flexed position, at an angle greater than 90 degrees. Generally, doctors caution that the elbow is not naturally designed to be hyperflexed for longer than 10 minutes at a time, but many of us regularly talk for hours on end.

Other, similar alarms have been sounded about gadget-related ailments, of course. Another, though supposedly less common, syndrome is the so-called “BlackBerry Thumb,” which refers to a repetitive stress injury from typing on those smartphones' tiny keyboards.

Personally, I found the “cellbow” reports a wake-up call, as more than once I have found my elbow extremely strained, as though it were strangely disconnected from me once I hung up the phone. Sometimes I've even had problems trying to operate a screwdriver after that.

Severe cases of cubital tunnel syndrome may require surgery, doctors say. Fortunately, most of the time, it can be cured through behavioral changes.

The easiest solution is using a hands-free device for prolonged calls. Most cell phones come with a headset, so use it. When a headset is not available, I suggest switching hands every few minutes.

Most of all, try to refrain from having long-distance relationships. And next time your elbow or fingers feel strange, maybe it's a better idea not to pick up the phone to call your doctor.

SPORTS

FOOTBALL

Hargreaves faces career concerns

Hargreaves travelled with the United squad to the Champions League final

Owen Hargreaves may be forced to quit top-level football in the next two years if his chronic knee problem persists, BBC Sport understands.

The Manchester United and England midfielder has had two operations to cure a tendinitis problem in both knees but the pain has yet to subside.

It is believed the 28-year-old has not yet planned a return date but is still confident of making a full recovery.

He has had only 25 starts since a £17m move from Bayern Munich in July 2007.

Hargreaves, who was seen demonstrating his ball skills during United's warm-up for the Champions League final in Rome on 27 May, has

not featured for Sir Alex Ferguson's side since their 1-1 draw with Chelsea on 21 September 2008.

He underwent surgery on his right knee last November and then on his left knee in January.

The procedures were carried out under the guidance of leading American knee surgeon Richard Steadman, who has previously operated on former Newcastle striker Alan Shearer, current Magpies forward Michael Owen and ex-Red Devils striker Ruud van Nistelrooy, who is now at Real Madrid.

Ferguson has previously said that he was "certain" Hargreaves would be fit for the beginning of the 2009-2010 campaign but it is now believed there is little chance of that happening.

Hargreaves, who is halfway through a four-year contract at United, hopes to begin training with the United first team at the end of July or the start of August but he could be restricted to as little as one session per week.

Manchester United declined to comment on Hargreaves' current level of fitness, but it is believed that his injury is so delicate it can only be monitored on a day-to-day basis and stepping up the intensity of his rehabilitation programme could have potentially disastrous ramifications.

If the England international suffers a recurrence of the original problem he would face another lengthy absence.

Hargreaves aims to manage the injury as slowly as necessary before making a return when he is pain free but he will not return if he is feeling any level of discomfort.

If Hargreaves is pain free he is likely to be able to play at the top level for at least four or five more years but, if not, a premature end is likely.

His condition, patellar tendinitis, can be described as inflammation of the tendon that attaches the quadriceps (thigh muscle) to the tibia (shin bone).

It can be caused by a number of factors, including a rapid increase in the frequency of training, sudden increase in the intensity of training, transition from one training method to another, genetic abnormalities of the knee joint and poor base strength of the quadriceps.
