BNTF 6 funding is being provided by CDB and the Governments of the participating BMCs. Implementation in most of the participating BMCs began in the latter half of 2009.

The infrastructure component of BNTF 6 provides, inter alia, for the implementation of an unspecified number of sub projects consisting primarily of minor civil works, including buildings for health, education, markets

and other purposes, water supply, footpaths, bridges, drains and minor road developments. The maximum cost of each sub project cannot exceed the equivalent of USD500,000 and sub project construction works may be done either by private or petty contract, direct labour, self help or a combination of the aforementioned modes of execution. The cost of small sub-projects cannot exceed the equivalent of USD50,000.

Additional information on the BNTF Programme can be obtained at CDB's web site, viz. www.caribank.org/Projects/Programmes/BasicNeedsTrustFund.

BASIC NEEDS TRUST FUND (BNTF)

Invitation for Pre-Qualification of Contractors

THE Caribbean Development Bank (CDB), Canadian International Development Agency (CIDA) and the Government of St Lucia have signed agreements for Fifth and Sixth BNTF Programmes to provide funding for inter alia, construction of a number of specified sub-projects. The CDB has recently concurred with the Government of St Lucia that each of the sub-project should be within the limits of US\$35,000 and under or limited to US\$500,000.

The SSDF will undertake to pre-qualify Community based contractors or community organisations for such sub-projects within the named sub-project locality so as to attract the widest participation in this process; it is also intended to encourage small to medium contractors and community organisations throughout the specific locality to provide timely information on their organisational capacity to undertake such projects and to afford such contractors greater opportunity to participate in the economic and social development of their communities.

Pre-qualification is therefore open to all interested Community based contractors and community organisations preferably within six miles (10 kilometres) of the sub-project site and will require the collection, completion and submission of the relevant Pre-qualification Document to provide information on the technical competence of each contractor or community organisation, the construction experience and experience of their key support staff, similar contracts performed over the last five years and their value, equipment owned or available for rent, availability of line credit and disclosure of evidence to a financial institution.

ONLY recommended contractors, upon satisfactory evaluation of the information provided by independent consultants appointed by CDB, will be subsequently invited to bid on the sub-project(s) within 12 months.

Costs borne by persons or organisations participating in this prequalification exercise will not be defrayed by SSDF.

The schedule of sub-projects, which constitute part of the components of the Fifth BNTF Programme is as follows:
