Nesting Sea Turtles

THE public is advised that the annual Sea Turtle Nesting Period extends from March 1st to November 30th, 2013. It means that during this period, sea turtles would come up to beaches to lay their eggs.

The Department of Fisheries would like to remind the general public that all nesting sea turtles and their eggs are protected year round and according to the fisheries regulations, no person shall interfere with any turtle nest or turtle that is nesting.

Persons should stay well out of sight of a sea turtle that is crawling up the beach or digging its nest, as it is very easily disturbed and may return to the water without laying. Persons must avoid using lights and must never shine a light directly in a sea turtle's face, as this may confuse it. It is also important not to touch or handle the eggs, as this will jeopardize the baby turtle survival.

For this year's nesting period, the Department has been receiving a number of reports with regards to interference with sea turtle nesting. Reports have indicated there are illegal

trading of sea turtle meat between the islands, local sale and consumption of sea turtle meat and eggs despite the closure. As such slaughtering of nesting sea turtles and the use of sea turtle eggs are illegal. With these increasing reports the Department and the Police has had to increase its surveillance and monitoring.

The Department urges poachers to discontinue their illegal activities and be reminded of the maximum fine of \$5000 if caught with sea turtle meat or eggs.

The public is encouraged to contact the Department of Fisheries from Monday to Friday between the hours of 8:00 am to 4:30 pm @ 468 4143 to report all observations regarding sea turtle nesting activity.

Closed Season for Lobster & Turtle Fishery

THE public is reminded that the Lobster Fishery is currently closed for the period March 1, 2013 to August 1, 2013, both days inclusive. As a result of the closure it is illegal to:

Fish for, remove from the fishery waters,

Expose for sale, sell or purchase,

Or at any time have in possession any Lobster

Likewise, the public is reminded that the Sea Turtle Fishery is currently closed for the period January 1, 2013 to September 30, 2013. As a result of the closure it is illegal to:

Fish for, remove from the fishery waters,

Expose for sale, sell or purchase,

Or at any time have in possession any Sea Turtle meat, Sea turtle eggs or any part of the Sea Turtle

A Fishery is closed as a means of ensuring that their populations can rebuild and contribute to sustainable livelihoods by reducing the amount of the resource that is removed from the sea and minimize disturbances during peak reproduction.

The Department of Fisheries continues to be extremely concerned about the lack of compliance during the closure of the Lobster Fishery and the Sea Turtle Fishery. The Department and the Police has received numerous reports of illegal activities including the possession and sale of sea turtle meat and lobsters. This has resulted in the arrest and fining of perpetrators.

Members of the public, fishers, vendors and restaurant establishments that fail to comply with the closure of these fisheries threaten the ability of their populations to rebuild and achieve a healthy status for continued sustainable fishing. As such, non-compliance with the closure of these fisheries rules may result in the extended closure of both the lobster and sea turtle fishery as a means of ensuring healthy populations.

The Department appeals to the general public, fishers, vendors, hotel and restaurants to comply with these annual closures and report to the Marine Police, the nearest Police Station or the Department of Fisheries, any person or establishment that is not complying with the rules of these closed seasons. Anyone caught violating the terms of the closure of the Sea Turtle or lobster fishery may be fined up to EC\$5000.00 for each offence.

For additional information contact the Department of Fisheries at telephone number 468-4135.

REQUEST FOR EXPRESSIONS OF INTEREST

SAINT LUCIA

Disaster Vulnerability Reduction Project

Assignment Title: Senior Spatial Data Management Coordinator (SDM Coordinator)

THE Government of Saint Lucia has requested financing from the World Bank to develop a project, the Disaster Vulnerability Reduction

Project (DVRP) that would contribute to the reduction of vulnerability to natural hazards in Saint Lucia. Part of the proceeds would be used to hire a Consultant to provide services as Senior Spatial Data Management Coordinator.

The Ministry of Finance, Economic Affairs, Planning and Social Security now invites eligible individual consultants to indicate their interest in providing the services. Interested individual consultants must provide information indicating that they are qualified to perform the services (CV's, description of similar assignments, experience in similar conditions, clients' references, etc.).

A consultant will be selected in accordance with the procedures for Selection of Individual Consultants set out in the World Bank's Guidelines: Selection and Employment of Consultants by World Bank Borrowers (2011).

Services Required:

The overall objective is to ensure the sustainable implementation and governance of a Geodata/national GIS platform within the Government of Saint Lucia. In addition, the SDM coordinator will provide technical assistance and build capacity in spatial data management and GIS analysis for climate impact assessment and other related areas.

Specific Duties And Outputs:

The SDM coordinator must be able to understand emerging GIS or spatial data management technologies and their application to a National GIS service;

Assess the appropriateness and integrity of the existing datasets for use in a GIS format;

Identify core spatial datasets and the standards and maintenance of these datasets;

Ensure that metadata guidelines are developed for all custodial spatial

datasets collected at all determined levels;

Once the GIS data and platform is developed, the SDM Coordinator must be able to administer the GeoNode application with a focus on facilitating the design and upgrading of the GeoNode;

Provide strategic guidance to the World Bank and partner organizations on how to more effectively use both the GIS and GeoNode platforms to support DRM decision-making in Saint Lucia and to deliver a more efficient emergency response countrywide;

Provide feedback on the operation of the GeoNode including relevance, updates, bugs and any such issues;

Conduct outreach and deliver GIS training to specifically selected Ministries and partner organizations using applications-based approach;

Stimulate the growth of the community of users of and contributors to the GIS platform;

Build GIS capacity building within the Ministry of Physical Development Environment And Housing;

Identify, upload, and style new or updated data on the GeoNode;

Provide a suite of disaster risk tools and maps (using existing information) for decision-makers and the public on the appropriate platform;

Using GeoNode platform, establish relationships with local/regional open source software community and within the local/regional university system to promote the use of the GeoNode specifically;

Promote and assist in the development of a framework to undertake community mapping activities for selected line Ministries, partner organizations and volunteers;

Facilitate and establish a spatial data management committee and user group consisting of members from participating Ministries and Agencies as a means of ensuring common data

standards, data protocols and policies are set, and to enhance the sharing of ideas and information.

Duration:

The assignment will be for a duration of one year with the option of extension for an additional one year based upon performance and quality of work outputs.

Qualifications Requirements and Performance Criteria:

Master's degree in GIS, Geography, Earth Science, Engineering, Computer Science or a related field from an accredited college or university with at least 5 years' experience using GIS software and mapping services; or

Bachelor's degree in GIS, Geography, Earth Science, Engineering, Computer Science or a related field from an accredited college or university with at least 8 years' experience using GIS software and mapping services; and

Demonstrated experience developing technical training materials and conducting training; and

Experience with government GIS applications especially in such business areas as planning, engineering, public safety and environmental policy; and

Knowledge of remote sensing technology, mapping and /or surveying equipment, spatial data management software and working knowledge of ArcGIS, database design and administration, AutoCad, and surveying principles;

Knowledge of GPS technology and well versed in operation of GPS equipment;

Demonstrated ability to work with and negotiate with international agencies; and

Demonstrated capacity to work independently and in a group environment

Further information on the assignment is contained in the Terms

of Reference which can be obtained from the Project Coordination Unit.

Expressions of interest, together with CV's and other documents, may be sent by mail, email or fax and must be delivered to the address below by July 31, 2013.
