1. BACKGROUND

THE Government of Saint Lucia (GOSL), as signatory to the United Nations Framework Convention on Climate Change (UNFCCC), is legally required to periodically prepare and submit National Communication (NC) reports to the UNFCCC Conference of Parties (COP). The primary objective of this document is to enable countries to report on work undertaken and planned, in response to the adverse impacts of climate change. This enables the COP to monitor national progress towards the implementation of the UNFCCC.

Since becoming a signatory, GOSL has submitted its Initial National Communication (INC) and its Second National Communication (SNC) in November 2002 and April 2012 respectively. The preparation of the Third National Communication (Third NATCOM) was initiated in August of 2013.

The United Nations Environment Programme (UNEP), through its Umbrella Programme, will function as the implementing agency. At the national level, the Department of Sustainable Development, Ministry of Education, Innovation Gender Relations and Sustainable Development, (through the Sustainable Development and Environment Division (SDED), is the executing agency on behalf of the GOSL.

The final aspects of implementation under the Third NATCOM are to complete the Constraints, Gaps, Financial and Technical Assistance Needs for Saint Lucia and to compile a synthesized document for submission to the UNFCCC. These two activities are being combined in a single consultancy. The report on Constraints, Gaps, Financial and Technical Assistance Needs for Saint Lucia seeks to 'identify needs to update information provided in the National Communication including relevant initiatives that may have taken place after the finalization of the previous National Communication components'.
