## **TERMS OF REFERENCE FOR CONSULTANCY**

*CONSTRAINTS, GAPS & RELATED FINANCIAL,  
TECHNICAL AND CAPACITY NEEDS  
ASSESSMENT & SYNTHESIS THIRD NATIONAL  
COMMUNICATION REPORT*

### **1. BACKGROUND**

THE Government of Saint Lucia (GOSL), as signatory to the United Nations Framework Convention on Climate Change (UNFCCC), is legally required to periodically prepare and submit National Communication (NC) reports to the UNFCCC Conference of Parties (COP). The primary objective of this document is to enable countries to report on work undertaken and planned, in response to the adverse impacts of climate change. This enables the COP to monitor national progress towards the implementation of the UNFCCC.

Since becoming a signatory, GOSL has submitted its Initial National Communication (INC) and its Second

National Communication (SNC) in November 2002 and April 2012 respectively. The preparation of the Third National Communication (Third NATCOM) was initiated in August of 2013.

The United Nations Environment Programme (UNEP), through its Umbrella Programme, will function as the implementing agency. At the national level, the Department of Sustainable Development, Ministry of Education, Innovation Gender Relations and Sustainable Development, (through the Sustainable Development and Environment Division (SDED), is the executing agency on behalf of the GOSL.

The final aspects of implementation under the Third NATCOM are to complete the Constraints, Gaps, Financial and Technical Assistance Needs for Saint Lucia and to compile a synthesized document for submission to the UNFCCC. These two activities are being combined in a single consultancy. The report on Constraints, Gaps, Financial and Technical Assistance Needs for Saint Lucia seeks to 'identify needs to update information provided in the National Communication including relevant initiatives that may have taken place after the finalization of the previous National Communication components'. The synthesis report is a summary document of all the six components of Saint Lucia's Third NATCOM.

## 2. OBJECTIVES

- A. To produce a report providing information on the Constraints, Gaps, Financial and Technical Assistance Needs for Saint Lucia;
- B. To produce a Third NATCOM Synthesis document for Saint Lucia for onward submission to the UNFCCC.

#### *REQUEST FOR EXPRESSIONS OF INTEREST*

**Assignment Title:  
NATIONAL CONSULTANT FOR THE  
SURVEY OF ODS ALTERNATIVES IN  
SAINT LUCIA**

SAINT LUCIA has received financial support from the Multilateral Fund (MLF) for Implementation of the Montreal Protocol on Substances that Deplete the Ozone Layer to undertake a survey of ozone depleting substances (ODS) alternatives at the national level. Successful implementation of this survey is expected to contribute to a wider adoption of low global warming potential (GWP), energy efficient and safe alternatives to hydrochlorofluorocarbons (HCFCs). In addition, the outcomes of this assignment will have a significant multiplier effect towards maximizing climate benefits of HCFC phase-out in Article 5 countries, while avoiding the introduction of high-GWP alternative technologies. A portion of the funds is to be used to hire a Consultant to undertake the survey.

The overall objective of this assignment is to conduct a detailed national survey in order to determine consumption, distribution and uses of various alternatives to ODS in Saint Lucia and to provide future projections of growth patterns by substance and (to the extent feasible) by sector/sub-sector.

The Sustainable Development Division of the Ministry of Education, Innovation, Gender Relations and Sustainable Development is inviting eligible Consultants to indicate their interest in a consultancy to undertake the survey of ODS alternatives at the national level according to the Terms of Reference (TORs) attached.

Interested persons are requested to submit their expressions of interest along with a brief technical proposal (no more than five (5) pages) in a sealed envelope marked "Confidential – ODS Survey" and addressed to the Permanent Secretary, Sustainable Development Department, Ministry of Education, Innovation, Gender Relations and Sustainable Development, c/o Sustainable Development Division, Caribbean Cinemas Building, Choc, by **Monday 7th September 2016, no later than 4:00 p.m.**

For further information, please contact the Sustainable Development Division at telephone number 451-8756.

*GOVERNMENT OF SAINT LUCIA*  
**THE WATER AND  
SEWERAGE COMPANY  
JOHN COMPTON DAM  
REHABILITATION PROJECT**  
**INVITATION FOR BIDS**

THE Water and Sewerage Company Inc. (WASCO) has received financing from the Caribbean Development Bank (CDB) towards the cost of the rehabilitation works on the John Compton Dam (JCD) and intends to apply a portion of the proceeds of this financing to eligible payments under this contract. Payment by CDB will be made only at the request of the WASCO and upon approval by CDB, and will be subject, in all respects, to the terms and conditions of the Financing Agreement. The Financing Agreement prohibits withdrawal from the financing account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the

knowledge of CDB, is prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations. No party other than WASCO shall derive any rights from the Financing Agreement or have any claim to the proceeds of the Financing.

The Project is being implemented by WASCO. WASCO has contracted Consultants who will assist the Company with delivering the Project. The Consultants have prepared conceptual designs and contract documentation and will assist in tender administration and evaluation and supervise Project activities.

The John Compton Dam (JCD) was constructed in the 1990s along the Roseau River near the village of Millet in central Saint Lucia. The reservoir water storage capacity has been compromised by sedimentation, with a corresponding effect on the reliability of water supply on the island. Rehabilitation works are therefore required.

WASCO now invites sealed bids from eligible bidders for the rehabilitation works for the John Compton Dam (JCD). The works include, but are not limited to the following:

1. Implement a dredging operation to remove sediment from the reservoir
2. Develop a nearby sediment disposal area (SDA) downstream of the dam.

The works will include installation of dredging equipment, a pipeline to the SDA, construction of the sediment containment dyke and associated water decant system plus other ancillary works.

The limits of the work will include mobilization, delivery and installation of the equipment, construction of the facilities, commissioning of the dredge system, operation of the dredge in the first dredge season, and training of operating staff.

Consideration will be limited to firms or joint ventures of firms, which are legally incorporated or otherwise organised in, and have their principal place of business in an eligible country and are either:

- (a) more than 50% beneficially owned by a citizen or citizens and/or a bona fide resident or residents of an eligible country, or by a body corporate or bodies corporate meeting these requirements; or
- (b) owned or controlled by the Government of an eligible country provided that it is legally and financially autonomous and operated under the commercial law of an eligible country and otherwise meets the eligibility requirements of the CDB Guidelines for Procurement (2006).

All countries are eligible for this opportunity.

Eligible bidders will be required to submit full qualification information with their bids establishing their eligibility to bid and qualification to perform the contract if the bid is accepted. Tender and qualification information are to be submitted in the English Language on the prescribed forms inserted in the Bid Documents. *TERMS OF REFERENCE - CONSULTING SERVICES*

**REPORTING SYSTEM FOR  
MEA IMPLEMENTATION -  
ENVIRONMENTAL INFORMATION  
MANAGEMENT**

**Increase Saint Lucia’s Capacity to Monitor  
Multi-lateral Environmental Agreements (MEA) and  
Sustainable Development Project**

**1. BACKGROUND**

SAINT LUCIA is signatory to a number of international agreements from which several benefits are derived from which numerous obligations arise. These in part shape national policies and legislation by promoting adequate measures to address environmental issues such as biodiversity loss, pollution of the marine environment, global warming and sea level rise as well as to promote sustainable livelihoods. For example, The Convention on Biological Diversity (CBD), the United Nations Framework Convention on Climate Change (UNFCCC) and the United Nations Convention to Combat Desertification (UNCCD) have facilitated opportunities for Saint Lucia to receive grants and technical expertise for projects related to biodiversity, climate change and land degradation.

While there is little doubt about the benefits of becoming signatories to such agreements, the lack of institutional, local and community awareness together with insufficient data collection, insufficient information to guide decision making at the policy level and limited monitoring and legal capacity to advise on Multilateral Environmental Agreements (MEAs) ratification and compliance have been a drawback to full implementation of MEAs.

The Government of Saint Lucia has embarked on a process of addressing these challenges through its Sustainable Development and Environment Division (SDED), and has been increasing its efforts to effectively put measures in place to monitor the implementation of Multi-lateral Environmental Agreements (MEAs) to which Saint Lucia is Party. In this regard, support has been granted from the Global Environment Facility (GEF) to address issues related to environmental information management. With the support of the UNEP and GEF, Saint Lucia has embarked on initiatives to identify capacity constraints. One such initiative is the GEF funded project aimed at ‘*Increasing Saint Lucia’s Capacity to Monitor MEA Implementation and Sustainable Development*’ by

providing support for the development of the country's environmental information system, better coordination of existing knowledge and generating new information on the state of the environment.

To this end, the Ministry of Education, Innovation, Gender Relations and Sustainable Development through its Sustainable Development and Environment Division is seeking a consulting firm to assist the Project Management Unit (PMU) in meeting its objectives by providing services as detailed in the Scope of Work below.

## 2. OVERALL OBJECTIVE

The overall objective of this consultancy is to support the stakeholders (Government Agencies, Private Sector and NGOs) in improving the environmental reporting system, developing indicator sets, establishing an Environmental Information System (EIS) and related online tools and platforms.

## 3. SCOPE OF WORK

In general the scope of work includes: (1) Developing a reporting system for MEA implementation to be used for at least 3 MEAs to which Saint Lucia is Party; (2) Establishing core environmental indicators for national development where appropriate and coherent with relevant regional and global indicators and; (3) Establishing an EIS online platform and related tools.

The consultant firm will:-

**Task 1 - Prepare a work plan and inception meeting report.**

Conduct an inception meeting with the Client (Sustainable Development Department through its Sustainable Development and Environment Division) upon commencement of the assignment to (i) review the process for the conduct of all activities within the assignment, (ii) determine roles and responsibilities, (iii) discuss the basis on which this work will be implemented, and iv) finalise the work plan and timetable. A final work plan and report on the outcome of the inception meeting will be prepared by the Consulting Firm, and submitted to the client no later than three (3) weeks from completion of the inception meeting date.

**Task 2 - Conduct assessment of currently reported information against reporting requirements of at least three (3) MEAs**

- a) Review pertinent literature including:
- I. Inception meeting of the Project Steering Committee Report (June 2016)

- II. Update: 2007 National Capacity for Self-Assessment Report (March 2014)
- III. Stakeholder Mapping Report (March 2014)
- IV. Information Management Training Needs Assessment Report (March 2014)
- V. Status of Environmental Information in St Lucia (March 2014)
- VI. MEA Workshop Report (February 2014)
- VII. Compliance Mechanisms Under Selected Multilateral Environmental Agreements - UNEP
- VIII. (TBD) See list of Multilateral Environmental Agreements (MEAs) for which St. Lucia is signatory at:

<https://www.informea.org/en/countries/LC/parties>

- b) Consult with other relevant agencies and projects, including:
- I. The Project Steering Committee (PSC)
  - II. Central Statistics Office
  - III. Sustainable Development and Environment Division, Ministry of Education, Innovation, Gender Relations and Sustainable Development
  - IV. The Ministries responsible for GeoNode – open source geospatial content management system (<https://sling.gosl.gov.lc/>)
- c) Develop and propose to the Project Management Unit (PMU) for approval a reporting system with clear assignment of responsibilities per organization on data collection and management;
- d) Under the supervision of the PMU and PSC establish common data storage facility and decide on access and sharing modalities;
- e) Prepare and present a draft report on the findings from activities a), b), c) and d), along with proposed reporting system for data collection and management and recommendations to the relevant agencies identified by the PMU;
- f) Incorporate comments from relevant agencies into the draft report accordingly and submit a final revised report to the PMU for approval.

**Task 3 – Identify priority environmental data gaps and develop plans to address them**

- a) Undertake a comprehensive environmental data needs assessment
- b) Develop recommendations on addressing data gaps

- c) Develop a plan for addressing institutional needs
- d) Prepare and present a draft report on the findings, along with proposed methodologies and recommendations to the relevant agencies to be identified by the PMU
- e) Incorporate comments received from relevant agencies into the draft report accordingly and submit a final revised version of the report to the PMU for approval

*Task 4 - Facilitate the identification and definition of a set of core sustainable development and environmental indicators based on national priorities (coherent with regional and international indicator frameworks)*

- a) Support the PMU for establishing of an inter-agency working group (IWAG) for joint indicator development. Provide the IAWG with technical and substantive support for the establishment of an indicator framework (including list of indicators where appropriate, regional and global frameworks) building on past results and exercises;
- b) Support IAWG in the dissemination of indicator framework amongst relevant stakeholder groups and gather, analyse and edit their feedback;
- c) Compile a revised indicator framework and plan to be submitted to IAWG for review and comment;
- d) Based on comments received, prepare and submit to PMU final plan for approval.

*Task 5 – Map national and regional information sources relating to priority environmental indicators in the context of sustainable development*

- a) Undertake mapping of existing information sources (including government, academia, and non-government organizations);
- b) Link additional and potential new sources with existing landscape (local, national, regional);
- c) Develop recommendations on how best to include the further sources into the indicator framework;
- d) Submit a draft report and recommendations to the IWAG and PMU for review and comments;
- e) Based on comments received, prepare and submit final report to the PMU for approval.

*Task 6 – Establish an online platform for sharing and presenting available information on Sustainable Development and MEA indicators*

- a) Compile data in an accessible and easy-to-use format by the relevant agencies;

- b) Establish online Environmental Information System (EIS) and online platform, including clear protocols for data provision, platform maintenance and access sharing modalities;
- c) Prepare a detailed and practical manual for the proposed EIS platform including protocols for data provision, maintenance and access sharing modalities and present the EIS along with the manual to relevant agencies to be identified by the PMU;
- d) Provide EIS and database management training for the contributing agencies and organizations;
- e) Incorporate comments and feedback received from the agencies into the manual accordingly and submit its final version to the PMU for approval.

#### **4. REPORTING REQUIREMENTS AND DELIVERABLES**

##### *Inception Report and Work Plan*

The Firm will report to the Project Manager. Shortly after the Firm has mobilized their resources and after having met the Executing Agency staff, the Firm will present an inception report to ensure that both parties (the Firm and Executing Agency) are in agreement that the assignment will be carried out as planned and as stipulated in the contract. The inception report will incorporate a work plan for the development of the different activities and deliverables.

##### *Specific deliverables will include:*

- Inception report **(Task 1)**
- Report on findings of currently reported information along with proposed reporting system for data collection, management and recommendations **(Task 2)**
- A common data storage facility, including data policy and sharing modalities **(Task 2)**
