DECISION ON INTERCONNECTION RATES FROM THE 36th COUNCIL OF MINISTERS' MEETING

AT ITS thirty-sixth meeting held on March 9, 2018, the ECTEL Council of Ministers approved the recommendation for new interconnection rates for telecommunications services in the ECTEL Member States.

Please find attached a summary of the rates and guidelines for the implementation of the decision. If you require any further guidance, please contact the ECTEL Directorate.

IMPLEMENTATION OF COST ORIENTED INTERCONNECTING RATES

1.0 Introduction

The Council of Ministers of ECTEL approved the Directorate's recommendation for the Long Run Incremental Cost (LRIC) models to be used to determine cost-oriented interconnection rates in the ECTEL Member States, at its 36th Meeting of the Council held on Friday March 9, 2018.

2.0 Special Notes to NTRCs and Licensees

The following recommendations do not bind ECTEL or the NTRCs with respect to any rates contained therein. These recommendations represent the culmination of the public consultation process on ECTEL's proposed LRIC model. They provide cost-oriented reference rates against which, ECTEL will assess rates contained in any proposed interconnection agreement between interconnecting licensees.

This notice is intended only to provide a clear statement of ECTEL's determination as to what constitute "cost oriented rates" in the ECTEL Member States, as required by relevant sections of the Telecommunications Act and related Interconnection Regulations. The document is, therefore, intended only to communicate to interested parties, the formal outcome of the Council's decision.

NTRCs and licensees should note that, each new proposed interconnection agreement negotiated in future, will still need to be referred to ECTEL for a formal recommendation prior to approval or rejection by the NTRC, as required by both the Telecommunications Act and Regulations.

Other than the requested actions recommended by ECTEL for the NTRCs and licensees at 4.0, NTRCs are not required to take any further action with respect to this notice.

3.0 The recommendation approved by the Council of Ministers

3.1 Recommend rates for mobile interconnection services

The Council of Ministers approved a one-year phased reduction in the rates for mobile interconnection services. The recommended rates will result in an up to 50 per cent reduction in the wholesale rate for mobile termination in the first year and up to 95 per cent reduction over the three-year period. The impact of this recommendation is expected to be significant reductions in rates for fixed to mobile and mobile to mobile calls over the next three years. The recommended rates are presented in the following tables. The recommended rates are applicable for calls originating domestically and internationally.
