prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations. No party other than GOSL shall derive any rights from the Financing Agreement or have any claim to the proceeds of the Financing.

The Ministry of Agriculture, Fisheries, Food Security and Rural Development, the Executing Agency, now wishes to procure consultancy services for a Gender Assessment and Updated Environmental and Social Management Plan.

The objective of the Project is to build resilience in Saint Lucia's agriculture sector for livelihoods security through enhanced adaptive capacities for Climate Change and Climate Variability. The project design responds directly to the need to build adaptive capacities of agro-ecosystems and livelihoods given the projections of significant decreases in rainfall, more frequent and intense hydro-meteorological events, including droughts as reported in the country's Third National Communication (TNC) to the United Nations Framework Convention on Climate Change (UNFCCC). The Project will contribute positively to the strategic objectives of Saint Lucia's Sectoral Adaptation Strategy and Action Plan for the Agriculture Sector (Agriculture SASAP) 2018-2028. It is also well aligned with the TNC recommendations for climate adaptation measures to enhance resilience in agriculture and with the proposals under the National Agriculture Policy Sectoral Adaptation Strategy and Action Plan (2018).

The Project is also responsive to Saint Lucia's Nationally Determined Contributions (NDCs) to address food security, community and national level interventions in water resource conservation and management. Gender equality will be mainstreamed throughout the Project to ensure gender equity is embedded in project interventions. An estimated 12,000 farmers and their families are expected to be direct beneficiaries of the Project. The duration of the assignment is expected to be for a period of four (4) months.

### SCOPE OF SERVICES

The Consulting Firm will be under the operational and technical supervision of the Project Manager of the Project Management Unit. The Consulting Firm will carry out the following two tasks:

- a) Conduct a Gender Assessment in line with the CDB's Gender Equality Policy and Operational Strategy (GEPOS) which is compliant with the Gender Policy of the AF.
- b) Revise the Environmental and Social Management Plan (ESMP), which will be informed by the completed Gender Assessment.

### QUALIFICATIONS AND EXPERIENCE

The Consultant(s) are required to have the following:

1. A post-graduate degree in Gender studies, Sociology or related subject and professional/technical background appropriate for understanding both the environmental and social management implications of climate resilience building intervention projects in the agriculture sector.
2. A minimum of ten (10) years' experience working in the area of gender analysis and a minimum of five years' experience working on inter-linkages between gender and agricultural sector development in developing countries. Work on these issues in the Caribbean context would be an asset.
3. At least five (5) years' experience in practical safeguards, social and environmental management with demonstrated proficiency in the preparation, review, and approval of Environmental Assessments (EAs), Environmental and Social Impact Assessments (ESIAs), and ESMPs to meet Multilateral Development Bank (MDB) standards.

**Further details can be found in the Terms of Reference, which can be obtained upon request.**
