THE Government of Saint Lucia (GOSL) has applied
for financing from the Caribbean Development Bank
(CDB) towards the cost of the Capacity Building /
Technical Assistance for Review of Triennial Tariff Review
Application Project and intends to apply a portion of
the proceeds to eligible payments under this contract.
Payment by CDB will be made only at the request of the
(GOSL) and upon approval by CDB, and will be subject, in
all respects, to the terms and conditions of the Financing
Agreement. The Financing Agreement prohibits a
withdrawal from the Financing Account for the purpose
of any payment to persons or entities, or for any import
of goods, if such payment or import, to the knowledge of
CDB, is prohibited by a decision of the United Nations
Security Council taken under Chapter VII of the Charter
of the United Nations. No party other than GOSL shall
derive any rights from the Financing Agreement or have
any claim to the proceeds of the Financing.

The National Utilities Regulatory Commission
(NURC) is the Executing Agency of this Project and now
wishes to procure consultancy services for conduct of
Review of Triennial Tariff Review Application submitted
by the Water and Sewerage Company (WASCO).

The consultancy's objective is to support the NURC
in its review of the triennial tariff application submitted
by the water utility and to build capacity among key staff
for future tariff review exercises. Further details can be
found in the attached Terms of Reference. The duration
of the assignment is expected to be for a period of one (1)
year May 2024 to April 2025. The NURC now invites
interested eligible consulting firms to submit Expressions
of Interest (EOI) for the provision of these consultancy
services.

Consultants shall be eligible to participate if:

- (a) in the case of a body corporate, it is legally
incorporated or otherwise organized.
- (b) in an eligible country, has its principal place of
business in an eligible country and is more than 50
per cent beneficially owned by citizen(s) and/or

bona fide resident(s) of eligible country(ies) or by a body(ies) corporate meeting these requirements.

- (b) in the case of unincorporated firms, the persons are citizens or bona fide residents of an eligible country; and
- (c) in all cases, the consultant has no arrangement and undertakes not to make any arrangements, whereby any substantial part of the net profits or other tangible benefits of the contract will accrue or be paid to a person not a citizen or bona fide resident of an eligible country.

Eligible countries are member countries of CDB. Consultants are advised to review the detailed eligibility criteria detailed in Section 4 and conflict of interest provisions in Section 5 of the Procedures for Projects Financed by CDB (January 2021).

In the assessment of submissions, consideration will be given to technical competence, qualifications and experience, local and regional experience on similar assignments, financial capability, and existing commitments. Key Experts will not be evaluated at the shortlisting stage.

Interested consultant teams are required to submit their Expression of Interest using the “EOI Consulting Firms template” attached to this REOI or can be downloaded from the Procurement Procedures for Projects Financed by CDB (January 2021) on CDB’s website.

All information must be submitted in English. Further information may be obtained from the first address below between 8:00 a.m. and 4:30 p.m. Monday to Friday.

Three (3) hard copies of the Expressions of Interest must be received at the first address below no later than **June 7, 2024, by 4:30 p.m. AST** and one electronic copy must be sent simultaneously to CDB at the second email address below. The sealed envelope containing each submission should include the name and address of the applicant and shall be clearly marked “**Expression of Interest – Consultancy Services for conduct of review of Triennial Tariff Review Application submitted by the Water and Sewerage Company (WASCO).**”

Following the assessment of submissions, a short-list of not less than three and not more than six applicants will be provided with full terms of reference and invited to submit technical and financial proposals to undertake the assignment. NURC reserves the right to accept or reject late applications or to cancel the present invitation partially or in its entirety. It will not be bound to assign any reason for not selecting any applicant and will not defray any costs incurred by any applicant in the preparation and submission of Expressions of Interest.

Draft Terms of Reference

GOVERNMENT OF SAINT LUCIA

CONSULTANCY SERVICES FOR CONDUCT OF REVIEW OF TRIENNIAL TARIFF REVIEW APPLICATION SUBMITTED BY THE WATER AND SEWERAGE COMPANY (WASCO)

1. BACKGROUND

THE National Utilities Regulatory Commission (NURC), established by the National Utilities Regulatory Commission Act Cap 9.01 of the Revised Laws of Saint Lucia (the NURC Act), is responsible for the regulation of water supply services, sewerage services and electricity supply services in Saint Lucia.

As the economic regulator for water supply services and sewerage services, the NURC is responsible for establishing, approving, reviewing and monitoring tariff schemes and tariffs in accordance with the Water and Sewerage Act Cap 9.03 of the Revised Laws of Saint Lucia (the Water and Sewerage Act) as amended by the NURC Act. Section 79 of the Water and Sewerage Act provides for three types of reviews to be carried out namely: (a) annual tariff review; (b) triennial tariff review; and (c) extraordinary tariff review.

Following the establishment of a functioning water regulator in 2012, an extraordinary tariff review, undertaken in 2013, set new water and sewerage rates for the period April 2013 to September 2015. This was followed by an annual review in 2014 which resulted in no changes to existing water and sewerage rates. Notwithstanding that an extraordinary tariff review was carried out in 2013, there has never been a triennial tariff review since the passage of the Water and Sewerage Act. A review of water and sewerage rates in accordance with the triennial tariff review provisions delineated in the Water and Sewerage Act and Water and Sewerage (Tariff) Regulations – Section 97 was due in 2018. The NURC, through the powers conferred on it by the NURC

Act Cap. 9:01 and the Water and Sewerage Act as amended by the NURC Act, is expected to perform this review between the period April 30, 2024, to August 31, 2024 as the triennium period commences September 1, 2024. This review will utilise an incentive based revenue cap methodology as prescribed by statute. In the light of the NURC's role in determining and approving water and sewerage rates, the NURC is seeking a consulting firm to assist and build capacity of the NURC staff in conducting the triennial tariff review.

1 Prior to 2016, the water sector in Saint Lucia was regulated by the National Water and Sewerage Commission (NWSC). Consequent upon the creation of the NURC, the NWSC was made defunct and its responsibilities as prescribed under the Water and Sewerage Act transferred to NURC.

2. OBJECTIVES: The objectives of the consultancy are to support the NURC in its review of the triennial tariff application submitted by the water utility; and to build capacity among key staff for future tariff review exercises.

3. SCOPE OF SERVICE

The tasks will include, but not be limited to the following:

- (a) **Development of a financial model to determine the utility's revenue requirements, and thereafter rates, in accordance with Section 97 of the Water and Sewerage Tariff Regulations ("Tariff Regulations").** In developing the model, due consideration should be given to the determination of the Regulatory Asset Value (RAV), including forecast capital expenditure and associated depreciation rates, as well as cost of service based on forecast customer usage and targeted Non-Revenue Water (NRW) rates. Model inputs, such as asset utilization and maintenance levels should be benchmarked against best practices.
- (b) **Support the NURC in its assessment of the completeness, sufficiency and adequacy of tariff review application.** In reviewing the application, the Consultant shall be guided by Tariff Regulations as well as the Minimum Filing Requirements set out by the NURC. Attention should be paid to the proposed service standards and the strategy for balance between service levels, proposed tariff prices and priorities for improvement.
- (c) **Recommend service standards.** In setting target service standards, the Consultant shall determine appropriate quality standards commensurate with the level of prices, in the context of forecast demand. Various scenarios should be assessed to enhance a measure of social acceptability to ensure

that all customers receive at least a 'basic' level of service and that any recommended subsidies are effectively targeted to mitigate errors of inclusion and exclusion. The existing Grievance Redress / Appeals Mechanism should be reviewed to ensure that customers have recourse to a system to raise issues related to the tariff scheme.

- (d) **Recommend a new tariff scheme.** The proposed tariff structure should ensure that tariffs recover the efficiently incurred costs of service and a reasonable return on capital. Any proposed tariff increases should be smoothed by applying a K Factor to be determined by the Consultant. The recommended tariff scheme should also assess the bill impact on various customer classes, defined according to the level of income, household or business. Particular attention should be paid to affordability and potential poverty impacts. The Tariff scheme may permit the granting of a direct subsidy with mechanisms for social assistance evaluated for appropriateness to establish eligibility for a potential social tariff for poorer segments.
- (e) **Conduct stakeholder consultations.** The Consultant shall prepare and present the proposed tariff scheme to a broad range of stakeholders as agreed with NURC for consultation in order to build support for the process. Response to stakeholders should elucidate the public's understanding of the tariff review process and feedback used to advise on any recommended changes to the recommended tariff scheme (draft determination report).

2 The smoothed change in tariffs over the triennial period is the K factor for each year of the tariff review period.

3 A poverty profile with demographic characteristics such as sex of household head, dependency ratio, and income should be established.

- (f) **Deliver training workshop.** The Consultant shall engage in capacity-building activities to improve skills of Commissioners and staff of the NURC and other identified stakeholders in Saint Lucia's Water and Energy Sectors. In accordance with a mutually agreed plan, training should cover various aspects of tariff setting including but not limited to technical areas, policy regulation and legislation, gender and social inclusion considerations, paying attention to approaches to cushion the impact of tariff rates and increases on consumers in the lower population quintiles.
- (g) **Develop a training manual which can be used in future to provide training for key staff.** The Consultant shall involve relevant NURC staff in all aspects of the rate review and should develop a

training manual to serve as a template/guide, which can be used in future training.

- (h) **Facilitate training in Utility Regulation and Strategy at the Public Utilities Research Centre**, an internationally recognised academic centre dedicated to research and to providing training in utility regulation and strategy, as well as the development of leadership in infrastructure policy. The training should be completed within one year after commencement of this consultancy.

4. REPORTING REQUIREMENTS

All reports shall be submitted in hard copy and digital format to the Chief Executive Officer (CEO). The Firm shall commence field work within two (2) weeks of the effective date of the contract and shall submit the following reports to the CEO within the time periods indicated:

No.	Deliverable	Related to Task(s)	Timeline
1	Financial Model	1	Week 2
2	Assessment report on WASCO's Tariff Application	2	Week2
3	Computed Revenue Requirement and Tariff Scheme	3,4	Week4
4	Report on recommended Service Quality Standards	5	Week5
5	Draft Determination Report	2,3,4,	Week 8
6	Stakeholder Consultations	5	9-11
7	Recommended Changes to Draft Determination Report based on stakeholder consultations and final tariff scheme	6	Week 12
8	Training Plan for training staff of the NURC and other stakeholders	7	Week 12
9	Training Workshop	7,8	Week14
10	Manual/template for conduct of tariff reviews	9	Week 16

5. IMPLEMENTATION ARRANGEMENTS

The Project will be executed by a Firm over a period of nine (9) consecutive months. The CEO of the NURC will assign a member of staff within the organisation to assume the role of the PC. The consultant will be provided with all documentation pertaining to the assignment, including the triennial tariff review application and supporting documents submitted by the utility, the NURC's Minimum Filing Requirements, the Water and Sewerage Act and Tariff Regulations. During this exercise, the Consultant is expected to work closely with NURC staff and to provide capacity-building in rate setting, utility infrastructure assessment, determination of service standards and benchmarking.

6. QUALIFICATIONS AND EXPERIENCE

The Firm should be very familiar with current best practices related to utilities regulation and have direct experience in capacity building involving public utilities. The consultancy team should have the necessary technical skills and relevant experience in policy and utility regulation, with principal members having relevant

qualifications. Prior experience in setting rates and in conducting tariff reviews for the water and/or electricity sector would be an asset. Previous working experience in projects in the Caribbean or other developing countries, will be an advantage. At a minimum, the following (but not limited to), the Key Professional Experts should be included in the proposal:

- Key Professional Expert 1: Team Lead Expert**, with not less than Fifteen (15) years of professional experience in the regulatory sector and a graduate degree of MSc or equivalent in Economics, Business Administration for Social Sciences.
- Key Professional Expert 2: Economist/Business Analyst**, with a strong background in accounting, finance or economics. No less than Ten (10) years of professional experience in the utility sector, including in the analysis and development of tariff structures.
- Key Professional Expert 3: Social Analyst**, graduate degree of MSc or equivalent, with no less than Ten (10) years of experience in social, gender and poverty analysis.
